Re: US v Henry P. Steeneck

07 CR 929

Your Honor:

I write to inform that Henry Steeneck underwent an operation in his abdomen at the Hudson Valley Hospital Center yesterday. I have received this information from his father who was present at the hospital. I have been told that the tube running from his shunt to his abdomen was lodged in fatty tissue. The procedure cut the tube to dislodge it.

It is unclear at this time whether he will be undergoing a separate procedure for the shunt. In an attempt to ascertain a proposed schedule, I contacted the office of Dr. Rosner. It became clear in my conversation with Gayle that the information that I had received from Mr. Steeneck was more up to date than the information that Gayle had as she believed he had undergone a procedure to change the shunt. Gayle informed me that, as of yesterday afternoon, she had not yet spoken with Dr. Rosner. She further explained that she would attempt, today, to obtain a letter updating the Court and setting forth future treatment.

Given tomorrow's holiday, and the past practice of Dr. Rosner in using an outside typing service, I do not believe that I will have such an update available for the Court until Monday, the earliest. If an update is received I will forward it as soon as practical.

Thank you.

Sincerely,

Charles J. Diven, Jr., Esq.
